

FEATURES

Stable Water Supply, Efficient Operation

Compatible with various beverage machines, the booster pump tackles intermittent water shortages and water pressure issues.

Compact Design, Easy Installation

The fully enclosed design ensures quick and easy installation. Its compact design saves under-counter space.

Easy Disassembly, Convenient Maintenance

Parts are easy to disassemble, and the pump and stainless-steel pipes are replaceable, meeting the needs of different customers. The structure is durable, ensuring a long service life.

Safety Design, Material Certification

Certified food-grade materials ensure quality and safety.

Technical Specifications

Item Name	Micro Booster
Item Number	WB17500000
Electrical Rating	230V 50Hz
Dimensions	W219mm xD471mm xH232mm
Rated Power	80W
Exterior Structure	Carbon Steel Spraying
Water pipe material	Stainless Steel
Weight	7.5 kg
Continuous water supply capacity	72 LPH
Outlet pressure	65 PSI
Booster tank volume	8 L
Agency Listing	GB

For details about the materials required for installation, please refer to the Installation Manual.
